EDUCATION

B.Tech – CSE (AI & ML)

Vignan's Lara Institute of Technology & Science,
Guntur
2024–2027 **CGPA: 8.64**

Diploma – Computer Science Engineering

Kallam Haranadha Reddy Institute of Technology,
Guntur
2021–2024 **CGPA: 7.7**

Secondary School Education

Zilla Parishad High School, Uppalapadu
2020–2021 **CGPA: 8.8**

TECHNICAL SKILLS

SAP ABAP Programming

- ABAP fundamentals, data types, structures
- Internal tables, work areas, Open SQL
- Database table operations

Data Dictionary (DDIC)

- Transparent tables, data elements, domains
- Structures, views, search helps

ABAP Reporting

- Classical and interactive reports
- Selection screens, ALV reports
- Data retrieval, sorting and filtering

Object-Oriented ABAP

- Classes, objects, methods, constructors
- Inheritance, encapsulation, interfaces

SAP Development Concepts

Function Modules, BAPI, BAdI, debugging,
modularization, CDS Views, Smart Forms,
SAP S/4HANA basics

Programming & Database

Python, C, SQL, MySQL

Development Tools

SAP GUI, Eclipse/ADT, Git, GitHub, VS Code

CERTIFICATIONS

- SAP Certified – Back-End Developer – ABAP Cloud
- Cisco Certified – Cybersecurity, Data Analytics
- AWS Cloud Practitioner Essentials – Training and Certification

CAREER OBJECTIVE

Aspiring SAP ABAP Developer pursuing a B.Tech in Computer Science and Engineering (AI & ML), with practical training in ABAP programming, SQL, database operations and SAP development. Seeking an entry-level SAP ABAP Developer role to apply knowledge of ABAP Dictionary (DDIC), Open SQL, internal tables, ALV reporting, selection screens and Object-Oriented ABAP while developing expertise in SAP S/4HANA.

INTERNSHIP

SAP ABAP Intern – Emax Technologies

20 Days

- Completed practical training in SAP ABAP programming and SAP development concepts.
- Practiced DDIC objects, internal tables, work areas, Open SQL and database table operations.
- Developed and practiced classical reports and ALV reports with selection screens.
- Practiced debugging, modularization and Object-Oriented ABAP concepts.
- Gained exposure to Function Modules, BAPIs, Smart Forms, enhancements, CDS Views and SAP S/4HANA ABAP concepts.

SAP ABAP PROJECTS

Employee Management ALV Report

SAP ABAP | DDIC | Open SQL | ALV

- Created an ABAP report to retrieve employee records from a database table using Open SQL.
- Implemented selection-screen inputs for employee-based data filtering.
- Displayed records using ALV with sorting and filtering capabilities.
- Applied internal tables, work areas, modularization and debugging.

Sales / Customer Management Report

SAP ABAP | Open SQL | ALV

- Developed an ABAP report to retrieve and display customer or sales-related records.
- Used selection screens and Open SQL queries for controlled database retrieval.
- Presented report output through ALV with sorting and filtering.
